

Improving Reliability in the Water Industry

Presenters: Brian Spence, Scottish Water
Jim Frail, Scottish Water,
Dennis Goodlad, Pump Centre

The theme of this year's Scottish Conference is Improving Reliability in the Water Industry. The aim is to provide an introduction to the factors which impact on reliability and availability of water and wastewater plant and equipment. Exhibitors and Equipment suppliers will also provide demonstrations and case studies relating to reliability improvement or product enhancements.

Morning Session:

- 09.00 – 09.10** Welcome and Introduction
Brian Spence (Scottish Water)
- 09.10 – 10.10** Understanding Pumps, Systems and their relationship to reliability and availability.
(Dennis Goodlad, Pump Centre)
- 10.10 – 10.30** Two Exhibitor Presentations
- 10.30** **Refreshment Break**
- 10.50 – 11.50** Water Industry Strategy for Operation & Maintenance
(Jim Frail, Scottish Water plus Scottish Water Contractors TBC)
- 11.50 – 12.10** Two Exhibitor Presentations
- 12.10 – 13.30** **Lunch and Exhibition**

Afternoon Session:

- 13.30 – 13.50** Two Exhibitor Presentations
- 13.50 – 14.15** Fault Prevention through Best Practice in Design – Part 1
(Dennis Goodlad, Pump Centre)
- 14.15 – 14.35** Two Exhibitor Presentations
- 14.35** **Refreshment Break**
- 14.55 – 15.20** Fault Prevention through Best Practice in Design – Part 2
(Dennis Goodlad, Pump Centre)
- 15.20 – 15.40** Questions and Answers
- 15.40** Close

Who Should attend?

The content of the presentations will be of interest to everyone involved in the Water Industry.
