

We Love Meat & Dairy

jacopa 
MBR

With over 20 years experience designing and building industry leading Membrane Bioreactor (MBR) plant, Jacopa understands the wastewater treatment challenges facing the Meat and Dairy sectors. Our innovative technologies ensure reliable, robust and economic solutions backed by leading technical support.

New Installations Complete treatment packages • Meet/exceed compliance standards • Expert project management

Existing Installations Increase capacity • Convert out-dated conventional systems to MBR • Improve compliance
• Optimise process efficiency

Jacopa Membranes Easy replacement • High fouling resistance • Low maintenance • Rapid delivery
• Three year warranty • Competitive price
