

# We're full of bright ideas

We believe in continuously striving to deliver improvements and ideas which add value and that it's no longer sustainable to think what you did yesterday will be alright tomorrow.

And we don't stop after one good idea, we illuminate and innovate every day.

- Build off-site - factory thinking
- Product standardisation and configuration
- Modular solutions
  - RBC units
  - Combined inlet works
  - Tertiary treatment
- Improving resilience
  - Pump and down-stream process protection
  - Grit plant optimisation
- Network and stormwater solutions
  - Screens retrofit
- Biological treatment
  - Cost effective MBR
  - High performance SAF
  - Filter bed distributors
- Project management
  - Early collaboration
  - Continual improvement in QHSE
  - Leveraging skills, experience and knowledge
